

# **SVB's SANKARA VIDYALAYA**

## **PRIMARY SECTION**

### **SONARPADA ,DOMBIVLI ( EAST)**

**Std :- I to IV**

**Duration: - 4.5 hrs per day**

Primary school education is education imparted to children in 5.5 – 9 years age group. It is the first stage of organised education. Elementary education is also known as primary education.

The overarching aims of Primary school education are

- ❖ Providing strong foundations for all round development and lifelong learning
- ❖ Preparing the child for school

### **Objective of Primary school Education**

- ❖ To ensure child friendly environment where each child is valued, respected, feels safe and secure and develops a positive self-concept.
- ❖ To enable a sound foundation for good health, well-being, nutrition, healthy habits and hygiene.
- ❖ To enable children to become effective communicators and foster both receptive and expressive language.
- ❖ To help children become involved learners, think critically, be creative, collaborate, communicate and connect with their immediate environment.
- ❖ To enable a smooth transition of children from primary to Secondary schools.
- ❖ To work as partners with parents and community to enable each child to flourish.

### **Primary Curriculum:-**

❖ Children are born with an incredible capacity and desire to learn. It is important that children are provided with rich experiences through play and activities that develop critical thinking and problem-solving, understanding about themselves which are age and developmentally appropriate. Pedagogical practices must include activities and experiences for all domains of development such as-cognitive, socio-emotional, language and literacy, physical-motor and creative and aesthetic which are interlinked. We provide ample opportunities to explore, understand, experiment, experience and transform information into meaningful content and skills.

**Goal 1: Children Maintain Good Health and Wellbeing**

**Goal 2: Children Become Effective Communicators**

**Goal 3: Children become involved learners and connect with their immediate environment**

**Key Areas in Primary Curriculum: -**

- **Cognitive (learning, thinking, problem solving)**
- **Theme Based Concept time**
- **Language and Communication**
- **Movement and Physical Development**

**Activity based Approach**

Children learn best through play. Children should engage in play activities which are neither too challenging nor too easy for their developmental level. In a play-based approach stimulating materials and activities are made available by the teacher and children self-select activities according to their interest at each point of time and learn at their own pace. A preschool child learns through various types of activities such as outdoor and indoor play, storytelling, art and music activities, organized in a preschool class.

**Activities included: -**

- **Projects and assignments**
- **Quiz**
- **Science fun**
- **Free hand drawing**
- **Story Time**
- **Audio- Visual Learning**
- **Rhyme time**
- **Art and Craft**
- **Festival Celebration**
- **Field Trip**
- **Special Days (Concept and Themes Related)**
- **Subject Museum and Subject Fest**
