

SVB's SANKARA VIDYALAYA
SECONDARY SECTION
SONARPADA ,DOMBIVLI (EAST)

Std :- V to X

Duration: - 5 hrs per day

Secondary education, the second stage traditionally found in formal education, beginning about age 11 to 13 and ending usually at age 15 to 18. Secondary education occupies a very strategic position in the educational pattern of the country. It is the link between primary education and higher education. Primary education is intended to provide minimum requirements for survival where as secondary education enables an individual to become a full members of the complicated society..

The overarching aims of Secondary school education are

- 1.To bring all round development among the learner.
2. To train the young mass of the country to be good citizens who will be competent to play their part effectively in the social and economic development of the country.
3. To promote social virtues, intellectual development and practical skills of students.
4. To Train character of students to enable them to participate creatively as citizens in the emerging social order.
5. To improve practical and vocational efficiency of the students.
6. To develop a scientific attitude of mind to think objectively.
7. To inculcate the qualities necessary for living harmoniously and efficiently with one's fellowmen.

7. To acquire the ability to utilize technology and information for the betterment of humankind;
8. To strengthen knowledge and attitude related to livelihood skills;

9. To develop the ability to appreciate art and show case talents;
10. To Promote physical fitness, health and well-being.
11. To Promote arts integrated learning.

Secondary Curriculum:-

□ Secondary Curriculum provides students a broad and balanced understanding of subjects including languages, Mathematics, Science and Social Science to enable students to communicate effectively, analyse information, take informed decisions, construct their worldview in alignment with constitutional values and move ahead in the direction of becoming productive citizens. The recent focus of Curriculum is on the development of 21st century skills in settings where each student feels independent, safe and comfortable with their learning. The curriculum is aligned in a way so that children feel more connected to it and employ their learning in real life contexts. To achieve this aim, it is extremely important that children acquire adequate knowledge and skills in other core areas like Health and Physical Education, Life Skills, Values Education, Art Education, Work Education and other Co-Scholastic areas. In operational sense, the secondary curriculum is learner-centered with school being a place where students would be acquiring various skills; building self-concept, sense of enterprise, aesthetic sensibilities and sportsmanship. Therefore, for the purpose of fostering core competencies in learners, this curriculum encompasses major learning areas, from scholastic and co scholastic point of view.

Goal 1: To enhance students learning skills

Goal 2: To enhance students life skills

Goal 3: To think scientifically, mathematically or artistically to face the real-life challenges in an information and technology driven world and enhance their inherent potential.

Key Areas in Secondary Curriculum: -

- ☐ Cognitive (learning, critical thinking, creative thinking, problem solving)
- ☐ Theme Based Concept time
- ☐ Language and Communication

Teaching methodology:

Innovative Teaching Methods

1. Technology
2. Puzzles and games
3. Interactive sessions
4. Creative thinking/ Brainstorming
5. Storytelling
6. Dramatization
7. Role play

“ A good teacher can inspire hope, ignite the imagination, and instill a love of learning.”

As teachers, there are multiple things that you have to take care of. Student engagement, classroom management, teaching strategies, and a lot more. Innovative teaching methods have to be employed in the classroom to ensure that the efforts that you put in do not go in vain. Teaching without having a clear plan or strategy is like trying to fill a broken pot. No matter how much you try to make it full, it will always leak out. Innovative teaching methods help to seal the broken pot and make teaching effective

1. Technology:- Technology in education is a vast topic with a lot of possibilities and opportunities. It is the education technology that has made it possible for teachers to make classes more fun and interesting.
2. Games & Puzzles- As the name suggests, it is a teaching method that involves games to teach a particular concept or lesson. We include quizzes, buzzer games, and more to ensure that learning is effective.
- 3) Creative Thinking- urges students to ask questions, inquire, research, and learn by themselves while the teachers guide them, direct them, and give the necessary push and guidelines whenever it is necessary.

4) Interactive session- We use brainstorming sessions, group discussions, debates, peer evaluations, or other activities for students to increase the interaction in our classroom.

5. Storytelling

Stories have a way of penetrating the students' minds and staying with them for longer durations. No matter what grade you teach, incorporating the storytelling method into teaching will show a marked increase in understanding the concepts better. Students will be able to connect with the lessons and relate to it. **Activities included: -**

- Projects and assignments
- Quiz
- Science fun
- Free hand drawing
- Story Time
- Audio- Visual Learning
- Art and Craft
- Festival Celebration
- Field Trip
- Special Days (Concept and Themes Related)
- Subject Museum and Subject Fest
